## SETUP INSTRUCTIONS:

Page 1 of the PDF is always the front of the card, page 2 the reverse. If multiple cards, a multi-page PDF is required.

File must be setup in CMYK. No Pantone or spot colours

300dpi resolution if created in vector based program, or 800dpi if created in Photoshop.

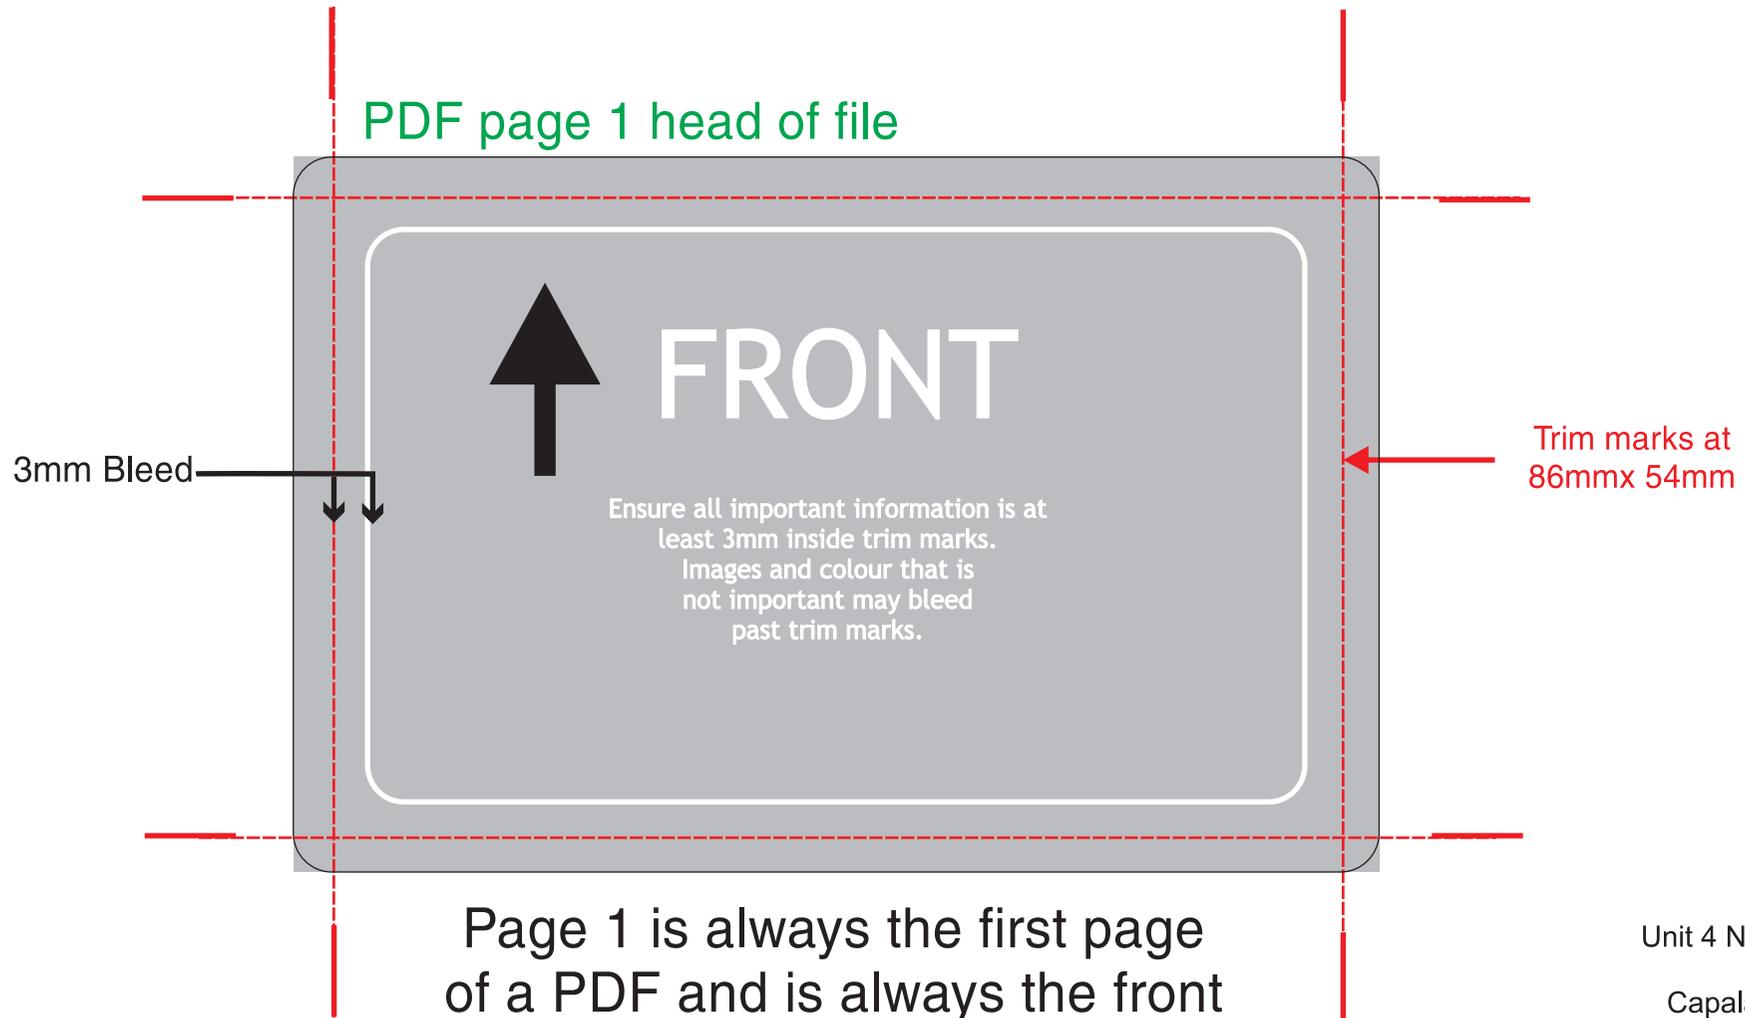

Final PDF must have crop marks, but no other registration marks or colour bars required.

Keep all text at least 3mm in from the edge of the card, to avoid being trimmed off when the cards are getting finished.

Convert all text to curves or outlines before saving as a PDF.
